UCC √ CHECK LIST √ BUILDING PERMIT REQUIREMENTS NEW CONSTRUCTION, ADDITIONS, & MAJOR ALTERATIONS { Use Form "N" }

GENERAL APPLICATION:

READ ALL INSTRUCTION PAGES FIRST

FILL OUT COMPLETELY

(If you believe something does not apply use NA)

ATTACH:

- DEED(s) – Copy is sufficient (New Construction only)
- PLOT PLAN
 - Must show all metes and bounds of lot
 - Proposed structure with all dimensions.
 - All existing structures.
 - All setbacks
 - E&S Best Management Practices
- Copy of DOE COMchek, RESchek or PHRC energy worksheet/report
- PROJECT COST -- SIGNED CONTRACTORS ESTIMATE – Copy is sufficient
- BUILDING PLANS
 - (COMMERCIAL & INDUSTRIAL) Must have Registered Architects or Engineers Stamp & signed (3 sets)
 - (RESIDENTIAL) Plans coded to materials list. (2 sets)
- SOIL & EROSION PLAN – Approved Copy or Letter from Luzerne Conservation District or DEP (If earth disturbance is over 5,000 sq.ft.)[Exempt in approved subdivisions with NPDES]
- HAZLE TOWNSHIP MUNICIPAL AUTHORITY PERMIT
- MUST BE PICKED UP AT THE SAME TIME YOU PICK UP BUILDING PERMIT APPL.
- HAZLE TOWNSHIP CODE COMPLIANCE FORMS
- ASBESTOS SURVEY REPORT (If Required)
- ALL OTHER FEDERAL, STATE OR LOCAL PERMITS or CLEARANCES (If Needed) (i.e. FAA, Wetlands, PADOT - HOP, etc.)

FIRE DEPARTMENT APPLICATION: (Commercial/Industrial Only)

- Fill out for any additional needed permit(s).
- Copy of Knox Box Application.

RETURN PACKAGE TO CODE ADMINISTRATORS OFFICE

Application will be reviewed by the Building Code Office. Applicant will be informed of results within 30 business days of the filing date or sooner unless extended by the Building Official and/or the Permit Applicant.

RES-CHECK

The following conditions are hereby noted and will be adhered to as per the Hazle Township Ordinances:

1. Fire rated doors, barriers, wall coverings, smoke & heat alarm systems and stops shall be installed were needed.
2. All contractors and Sub-Contractors MUST have a valid Hazle Township Contractors License.
3. Plastic interior water pipes/lines installed in the above residence may be subject to early degradation and failure. They are installed at the owners and contractors risk and who shall hold Hazle Township and their Officials harmless if any problems occur with the plastic water lines.
4. A fully executed Inspection Form shall be presented prior to the issuance of an Occupancy Permit.
5. Any and all amendments to the Building Codes in Hazle Township.
6. A construction code official may enter a building, structure or in process unoccupied structure during normal business hours to enforce the Uniform Construction Code provisions without notification to the permit holder.

I/We acting as agent for/by _____
swear and/or affirm that this statement is true and correct to the best of my knowledge.

I/We hold harmless the Township of Hazle for any work or actions performed in the building of this structure(s) by non-conformance with all the applicable Codes, Ordinances and Laws. I understand that any false statements made herein and upon the entire application are made subject to the penalties of 18 Pa. C. S. §4909 relating to unsworn falsifications to authorities.

RESIDENTIAL BUILDING PERMIT INSPECTION SHEET

**INSPECTIONS MUST BE SCHEDULED BY TELEPHONE OR EMAIL
AT LEAST 24 HOURS IN ADVANCE.**

**WORK SHALL NOT PROCEED UNTIL THE FIELD INSPECTION HAS
BEEN APPROVED**

1. **FOOTPRINT**- Preliminary approval of the site prior to digging footer. A verification of the setbacks is done at the footer inspection.
2. **FOOTER (Pre-Pour)** - This inspection verifies the footer depth, slope, rebar & chair placement. A verification of the setbacks is done.
3. **FOOTER (Post-Pour)** - This inspection verifies the concrete placement.
4. **FOUNDATION**- Concrete or masonry foundation walls inspected for lateral support and or reinforcement required, core filling and anchor bolt placement. Damp-proofing and footer drainage systems are inspected for compliance.
5. **BELOW GRADE PLUMBING**- Any plumbing below the concrete slab is **inspected and air tested.**
6. **ELECTRICAL ROUGH-IN**- Prior to any covering, all wiring, boxes, service panel and utility pre-connections are inspected. A cut-in card request can be done also. **All grounds shall be tied together for this inspection.** All opening must be sealed and or fire sealed.
7. **PLUMBING ROUGH-IN**- Prior to any covering of plumbing. All domestic water systems are air tested to **50lbs. for 15 minutes** and DWV systems are air tested to **5 lbs. for 15 minutes.** All openings must be sealed and or fire sealed.
8. **MECHANICAL ROUGH-IN**- Prior to any covering. Routing of duct work is inspected, insulation values are verified and any energy code requirements. Gas piping test is required, if applicable.
9. An **ICE SHIELD** inspection is required prior to the roof covering being installed. The Ice shield inspection can be requested prior to the framing.

10. **FRAMING & MASONRY**- All frame structural work and sheathing inspected prior to placement of the insulation. All masonry work shall be inspected including wall-ties, weep holes, weather resistant sheathing and flashing. An **ICE SHIELD** inspection is required prior to the roof covering being installed. The Ice shield inspection can be requested prior to the framing. Fire-blocking and energy code requirements are inspected at this time.
11. **INSULATION**- Verification of energy code requirements is done. All air leakage areas are checked for proper sealing. The Energy Code inspections are done at different intervals through out the building construction and are not one specific inspection.
12. **WALLBOARD/GYPSUM**- This inspection verifies the gypsum board attachment and fire rated assemblies.
13. **FINAL ELECTRICAL, PLUMBING, MECHANICAL, FIRE & FINISH** **ALL** equipment, fixtures, devices, appliances, heating and cooling, water systems are installed and functional. The fire detection system and fire rated assemblies are inspected. The finish grade and drainage are inspected. **ALL work is completed and ready for occupancy**. Upon inspection and acceptance, A Certificate of Occupancy will be issued.

SPECIAL INSPECTIONS

1. **SUPERIOR WALL SYSTEMS**- The Superior Wall Systems require special inspections. The FOOTING inspection is based on the manufacturer specifications. The frost depths are verified and stone bedding and drain piping installation is done. All compaction of the stone is observed.

The 2. **FOUNDATION WALLS**- The setting of the foundation walls is observed. The verification of the installers' certification is documented. No backfilling is done until the 1st floor joist framing and basement floor must be poured as required by the Manufacturer Installation Instructions.

The Hazle Township Building Department telephone number to schedule inspections is **(570)453-2466**. Any arrangements for any inspections are requested through the Building Department. An addition, the Building Department can be contacted via email at **building@hazletownship.com**

SUBMITTAL GUIDE for RESIDENTIAL PROJECTS

Building Plan Requirements

The following items are required for new residential projects. Drawings shall provide the necessary information to verify compliance with the building code. Scale should be appropriate to sheet size and must be clearly marked on each sheet. Sheet size shall not be less than 11 inches by 17 inches. All drawings shall bear the name and signature of the person responsible for the design.

Two (2) sets of construction drawings shall be submitted and shall include:

Title Page Drawing: to include the contact information for designer(s), description of square footage per floor, number of floors, type of construction to be utilized, design occupant load(s), finish materials classification, statement that design codes utilized are in accordance with the current IBC edition as adopted by Hazle Township.

Site Plan Drawings: to include all utility layouts, lot property line(s) measurements, setbacks, proposed structure(s) w/ dimensions, existing structures w/ measurements, E+S BMP's, north arrow and any adjacent street names. Eagle Rock Development additional E&S control includes "Dry Well" calculation package from Eagle Rock.

Floor Plan Drawings: to include the use of all areas, location & types of fire resistant construction, U.L. Listing of fire resistant construction, means of egress components.

Structural Drawings: to include the structural design calculations, uniform live loads, dead loads, roof & snow loads, wind loads, footing construction detail, foundation construction details, framing construction details, concrete construction details, masonry construction details, wood construction details, steel construction details.

Elevations – Structure Exterior: to include front, side and rear views.

***Electrical Drawings:** to include all circuits required for lighting, appliances and mechanical equipment within the building or structure.

***Mechanical Drawings:** to include size & type of appliances, construction of flues and chimney systems, ventilation air provided, fresh air make-up provided, location of all ducting and piping.

***Plumbing Drawings:** to include a plan view and a riser diagram of waste & water piping, pipe sizing, grade of piping, drainage fixture unit loads on stacks and drains, water distribution design criteria.

***Life Protection Systems:** to include the hard-wired, battery backup smoke detector system and location of units. If a carbon based heating system is located in the structure include the hard-wired, battery backup carbon monoxide detector system and location of units. If a sprinkler system is installed include the submittal guide for the system. See specific submittal guide requirements.

Driveway Permit: Any driveway access to a State Roadway must have a Highway Occupancy Permit issued from Penn-DOT prior to any building permit being issued from the Township. A Driveway Permit must be issued from Hazle Township for any Township roadway and must be approved prior to the issuance of a building permit.

*May be combined on one sheet if properly coded.

APPENDIX B

STORMWATER MANAGEMENT PERMIT GUIDELINES AND APPLICATIONS

Anyone performing a regulated activity, unless specifically exempt by Section 302 of the Ordinance, must complete the accompanying Stormwater Management Permit Application and required drawings and documents, and submit to Hazle Township. A regulated activity is defined by this Ordinance as:

Regulated Activity - Any earth disturbance activities or any activities that involve the alteration or development of land in a manner that may affect stormwater runoff.

This includes but is not limited to: the clearing of wooded areas, grading and excavating, placement of pavement (driveways, parking areas, roads), construction of buildings, construction of stormwater management facilities, the diversion or piping of any natural or man-made stream channel, the construction of other structures (homes, sheds, garages, commercial and industrial buildings), and other activities which alter the way stormwater runs off of the landscape. See Section 105 of Ordinance for additional detail on Regulated Activities. Impervious area is defined by this Ordinance as:

Impervious Surface (Impervious Area) - A surface that prevents the infiltration of water into the ground. Impervious surfaces include, but are not limited to, streets, sidewalks, pavements, parking lots, driveways, roofs, stone patios. See definition of "Gravel (Crushed Stone)" for when gravel classifies as impervious area.

Gravel (Crushed Stone) - Considered to be impervious when the intended use of the stone is for transportation purposes, parking areas, construction areas, trails, or if the gravel is compacted at any time during or after its placement; landscaping stone is not considered as impervious area.

Depending on the amount of impervious area placed and the amount of earth disturbance to the project site, this Ordinance requires different levels of stormwater management, and correspondingly different levels of design and review.

Level 1: Proposed impervious area is 500 sq. ft. to 1,000 sq. ft. or total earth disturbance is 1,000 sq. ft. to 5,000 sq. ft.

Stormwater Management Controls: Ensure that adverse downstream impacts do not occur due to redirecting stormwater flows towards nearby structures. Stormwater Management Controls must comply with Section 301 of this Ordinance.

Submission: Submit the Stormwater Management Permit Application and Sketch to Hazle Township Code Enforcement Officer.

Review: Shall be completed by Hazle Township Zoning Officer or Building Inspector.

**LEVEL 1 APPLICATION – PROJECT SKETCH
HAZLE TOWNSHIP ACT 167 STORMWATER MANAGEMENT**

Level 1: Proposed impervious area is 500 sq. ft. to 1,000 sq. ft. or total earth disturbance is 1,000 sq. ft. to 5,000 sq. ft.

Stormwater Management Controls: Ensure that adverse downstream impacts do not occur due to redirecting stormwater flows towards nearby structures. The following general requirements shall be met as follows:

- A. There shall be no increase in the rate of storm water discharge from the land development or subdivision that would have occurred from the land prior to the activity. No Level 4 regulated activities shall commence until the Township issues written approval of a SWM Site Plan.
- B. Each person, corporation, or other entity which makes any surface changes shall be required to: a) collect on-site surface runoff and dispose of it to the point of discharge into the common natural water course of the drainage area; b) handle existing off-site runoff through his development.

Submission: Submit the Stormwater Management Permit Application and Sketch to Hazle Township Code Enforcement Officer.

Review: Shall be completed by Hazle Township Zoning Officer or Building Inspector.

EXAMPLE LEVEL 1 PROJECT SKETCH

- Show direction of proposed stormwater discharges
- Show all structures within 50 feet of site
- If storm sewers are present, show approximate location of inlets

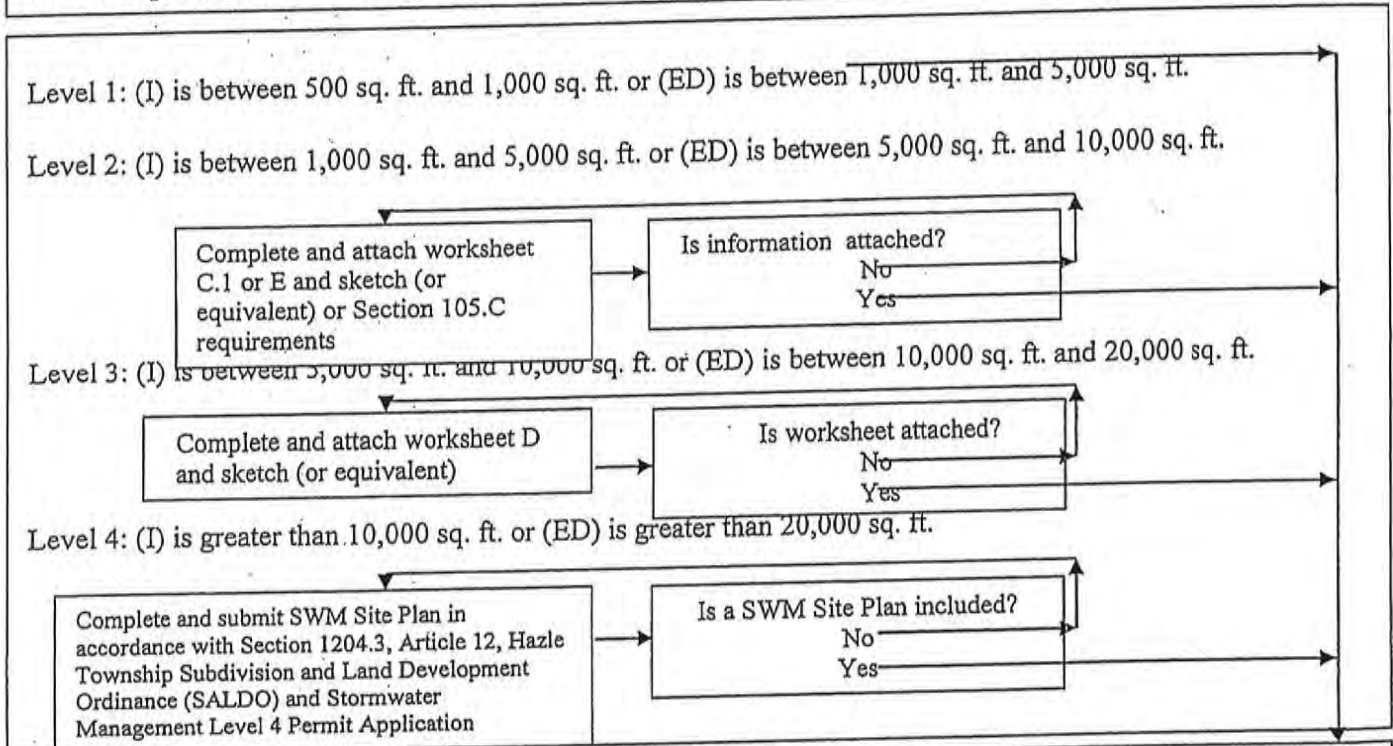

STORMWATER MANAGEMENT PERMIT APPLICATION – Levels 1, 2, 3, & 4
